

MARIEM TOUATI

321-353-3091 | mariemtouati.04@gmail.com | <https://www.linkedin.com/in/mariem-touati> | Orlando, FL 32826

EDUCATION

University of Central Florida

Bachelor of Arts in Computer Science, Minor in Digital Media, TEFL Certificate

GPA: 3.5

Orlando, FL

January 2023 – Present

EXPERIENCE

Student Designer

Summer 2026 – Present

Develop for Good

Remote

- Design low- and high-fidelity wireframes in Figma for ConnectED, a nonprofit building education-leadership networks across rural Latin American communities, focusing on user flows and accessibility.
- Iterate on UI components (typography, iconography, CTA placement, and visual hierarchy), incorporating feedback across multiple design review cycles.
- Collaborate with fellow designers and a design manager to translate organizational goals into user-centered design solutions.

Knight Hacks Outreach Team

February 2026 – Present

University of Central Florida

Orlando, FL

- Collaborate on the production of social media content, including the filming of videos, to increase club engagement and visibility within the student body.
- Draft captions for promotional videos, ensuring a consistent voice across social media posts.

Association of Computing Machinery

May 2024 – May 2025

University of Central Florida

Orlando, FL

- Member of the Creative Committee, assisted in the proofreading and creation of materials via Canva.
- Tackled the ideation of easily digestible phrasing for a variety of promotional content.

Retail

March 2019 – August 2024

Three Diamonds Beauty Supply

Cocoa, FL

- Educated customers on product specifications and benefits, tailoring inquiries into custom recommendations.

PROJECTS

Fleurish | *React Native, TypeScript, Figma, Supabase, PostGIS*

- Led front-end design for a gamified social plant-identification app, drawing artistic inspiration from Impressionist painters like Monet to shape the color palette and visual identity, and built the identify-to-leaderboard flow in React Native from Figma to shipped UI.
- Designed the user-facing presentation of a two-stage AI diagnosis pipeline (Plant.id species ID into Gemini 2.5 Flash disease diagnosis) and the map-based discovery UI powered by PostGIS proximity search, turning structured backend output into clear in-app guidance.

KnightRate | *React, Figma, Node.js, Express.js, MongoDB*

- Served as UI/UX designer for a MERN-stack course-review platform for UCF students, taking the product from low-fidelity Figma wireframes through high-fidelity prototypes that guided the front-end build.
- Established a unified design language rooted in UCF's black-and-gold branding, including a light/dark mode toggle, achieving a perfect Lighthouse score across performance, accessibility, and best practices.

Logophile Lexicon | *React, TypeScript*

- Designing and building a rare-word dictionary app with category-based sorting, partial-search browsing, and dedicated word pages showing definitions and example sentences.
- Designing memorization games and a phone-widget Focus Mode that surfaces a word on the user's home screen for passive daily learning.

Chef's Up! | *React, JavaScript, Tailwind CSS, Vercel*

- Developing a responsive web application that parses user-inputted ingredients to return filtered recipes via Spoonacular API.
- Implementing complex filtering logic to accommodate diverse dietary restrictions, ensuring a personalized and accessible user experience.

TECHNICAL/SOFT SKILLS

Design: Figma, Lighthouse Audits, Adobe Creative Suite (InDesign, Illustrator, Photoshop, XD), Clip Studio Paint

Development: React, React Native, TypeScript, JavaScript, Java, Python, C, HTML/CSS, Tailwind CSS, Three.js

Tools: Vercel, Supabase, Git/GitHub, Spline, Vim, Emacs, Trello

Software: Microsoft 365, Adobe Creative Suite, Visual Studio Code, Markdown, Obsidian, Ellipsis

Languages: English, Arabic, Algerian Arabic, Spanish (Intermediate Comprehension), Italian (Intermediate Comprehension), Japanese (Introductory)
